

The most memorable scene in Rise Of The Planet Of The Apes was probably when mistreated chimp Caesar (Andy Serkis) finally had enough abuse and retaliated while shouting "Noooooooo" at his tormentor. Of course knowing where this story will eventually go, this is clearly a precursor to all of the apes speaking when they ascend to power. But will they be chatting away as soon as the first follow up comes along? In today's Q & A with Jeff Goldsmith podcast screenwriter Amanda Silver speaks a little about the sequel. She says that the title will be "Rise Of The Planet Of The Apes: Part Two" but is most likely joking or just unwilling to discuss the real title (if they have one yet). She also says.. We're working on the sequel right now, to the prequel, and so the excitement is – I'm not gonna tell you, but – are
