

Roger Ebert shares his opinion of The Amazing Spider-Man and gives it 3.5/4 stars! This is great news for fans of The Amazing Spider-Man because Roger Ebert is arguably the most popular movie critic out there and this will surely help the Andrew Garfield incarnation of Spider-Man become more accepted in the public's eye. Here is a synopsis of what he thought. Hit the link if you would like to view his whole review. We live in an age of speed-up, which may explain why the "Spider-Man" franchise feels the need for a reboot only 10 years after its first film, and five years after the most recent one. In its broad strokes, "The Amazing Spider-Man" is a remake of Sam Raimi's "Spider-Man" (2002), but it's not the broad strokes we care about. This is a more thoughtful film, and its action scenes are easier to follow in space and time. If
