

2000 AD was one of the first comics I ever read as a kid, and in a universe filled with amazing characters, Judge Dredd always stood out. There was something fascinating to me about this cold, ruthless lawman being portrayed as the hero, and the stories were nearly always gripping enough to keep me coming back for more. As I got older, I began to pick up on the more satirical elements too, and started to realize that this anti-hero did have a heart..even if he couldn't remember the last time he used it. Yes, it's safe to say I was and remain a huge fan, so I had pretty high hopes for this movie - especially after the Stallone debacle. I'm happy to report that Dredd is a success - in most respects anyway. Set over the course of one day, as the grizzled veteran, Dredd, puts psychic rookie Anderson
