

The Cabin In The Woods is a very difficult movie to review, because to discuss its positives or negatives in any real detail would give too much away. Honestly, even that trailer was too much. This movie works best when you know as little as possible about it. All you need to know about the story is this: Five high school pals take a trip to a creepy cabin, where all manner of weird shit happens to them. Now, go see it! Ok, obviously I can't leave it at that so I'll proceed without dropping anything too spoilerific, but if you want to know absolutely nothing about the film probably best to skip this. Right from the get-go Cabin plays with our expectations with a very strange and quite funny opening credits scene. From there we meet our protagonists. Think every horror character cliché imaginable - the jock, the slut, the
