

THI was the second movie to be released by Marvel Studios as part of the the "Marvel Cinematic Universe". It attempted to right the many (perceived) wrongs of Ang Lee's previous take on the character by being more action orientated and taking more influence from the fan favorite '70s tv series with Bill Bixby. These things the movie did, but in doing so did it lose out on what DID work in Ang Lee's film? The answer to that question will depend of course on what you want from a Hulk movie, and indeed movies period. Directing duties fell to Louis Letterier, a long time fan who had previously lobbied to direct Iron Man. The decision was made to pretty much disregard all of the events from the previous film, but at the same time (despite a revamped origin title sequence) Letterier's flick continued on after the events of Lee's, even beginning
