

Not too long ago Cosmic Book News posted some information from the same source below that simply said that old batcave from Batman Begins would be used once again in The Dark Knight Rises. As you can see below that same source has added to that info and filled in some blanks. This type of information should always be taken with a grain of salt. CBN: Now, here is some updated info: The overall design of the cave is almost identical to the cave of Batman Begins, with it being a basic cave without cavernous drops. The waterfall is still there. There have been upgrades with better lighting than the basic generator powered ones put up in Batman Begins. There is a whole new batcomputer similar to the set up in The Dark Knight. There is a weapons area where all of Batman's equipment used in both films, plus new gadgets, can be
