

2016 is about to come to an end. Here is the definite ranking of comic book movies from this year from worst to best!

7. Batman v Superman: Dawn of Justice Well what left is there to say about this so-called movie? It was a disappointment right from the start. Not only that, but it was just a bad film. Pretty much everything was wrong with it. Bad direction, dull characters, awful villains, Riddler "Lex", cave troll Doomsday, bad acting, terrible cgi, etc. Don't even let me get started on that "Martha" scene. I hate this movie with a passion. No wonder it was a flop. The only good thing about BvS was Gal Gagot's Wonder Woman. 4/10

6. X-Men: Apocalypse After the great movies First Class and Days of Future Past, I was quite looking forward to the third and last film of this new X-Men trilogy. I was disappointed to say the very least. The whole movie was just plain generic, dull and forgettable. Another "end-of-the-world" blockbuster
