

--SCARECROW --> Comic Book History Who is SCARECROW? The SCARECROW is Dr. Jonathan Crane, a DC Comics supervillain mainly appearing in Batman books. SCARECROW first appeared in World's Finest Comics #3 (Fall 1941) and was created by Bill Finger and Bob Kane. He is a former psychiatrist who uses a variety of drugs and psychological tactics to exploit the fears and phobias of his adversaries. First Appearance In his initial appearance, Jonathan Crane was a professor of psychology. He was shunned by the other teachers for not dressing well, as he spent all his money on books. Crane was fired when he shot a gun in class, while teaching the psychology of fear. His removal from his work is what prompted Crane to become the SCARECROW. He wanted to represent the combination of poverty and fear. His turn to crime lead him to several encounters with Batman. Using the fear toxin formula to scare
