

In the series, the X-MEN are reunited following the death of a teammate, and are summoned by Charles Xavier to track down Hisako Ichiki, a missing teenage girl in Northern Japan. There, they encounter the fanatical and anti-mutant group, U-MEN, and discover what was important enough for Xavier to bring them back together. The answer is something that could potentially bridge the gap between mutants and humans, or tear the two species apart forever.

The final episode of Marvel's X-Men Anime airs on G4 this coming Friday at 11 PM EST.
