

Synopsis- Visionary filmmaker Ridley Scott returns to the genre he helped define, creating an original science fiction epic set in the most dangerous corners of the universe. The film takes a team of scientists and explorers on a thrilling journey that will test their physical and mental limits and strand them on a distant world, where they will discover the answers to our most profound questions and to life's ultimate mystery. Wait one second! Where are my Charlize Theron naked push-ups? This is a travesty! Someone call the police because I was just robbed of naked push-ups. The horror! Since I got that off my chest, let's focus on the images. With drool coming down my chin and a goofy smile plastered on my face, I feel confident in saying, Ridley Scott is bringing the heat. The guy hasn't done a sci-fi movie since 1982's classic Blade Runner, and now he comes
