

Looks pretty entertaining I must say. Batfxxx is missing and Gothard City is in danger of being wiped out by a deadly virus. Katwoman is their only hope of survival and she makes a deal with her arch-enemy The Jo-Kerr to save the city from this potential threat. With Wonderchick, Jokette, 2-Face, Gangster Lovato and super-busty Superchick, it's an all-star cast of hot and horny players in this action-packed, sex-filled adventure. Packed with plenty of action, from the chases, fights and explosions to a lot more! Starring Dylan Ryder, Kagney Linn Karter, Gemma Massey, Jennifer Dark, Anna Lovato, Natasha Marley, Bridgette B, Lexi Swallow, Mr. Pete, Paul Chaplin and more ridiculously named porn actors.
