

Dame Judi Dench, 76, has been playing the role of M for 16 years. She made her first appearance in a Bond film in Goldeneye. The latest Bond film, Skyfall has just started filming last week. The plot is expected to center around M, the head of MI6, and her past. Skyfall will be Judi's seventh film in the franchise, and her third alongside Daniel Craig as 007. "Daniels an incredible talent and I love working with him but I still miss Pierce," "He was a very warm man and always a lot of fun, always laughing and joking. Pierce was great to have around the set. We became close friends." "I did four Bonds with him so I missed him after he finished with the role." "There's no comparison between him and Daniel. They're completely different actors but both are brilliant men with a fantastic sense of humor, very self-mocking, which you need
