

The Spider-Man PS4 costume just might be growing on me...As seen in the latest TV spot for the PS4, which touts the console's impressive slate of current and upcoming titles, we just might be getting that Arkham-inspired Spider-Man video game that fans have been craving for years.

Other titles teased in the TV spot include Street Fighter V, Horizon: Zero Dawn, Call of Duty: Infinite Warfare and the highly anticipated next installment in the God of War franchise. As always, be sure to check out our sister site, GameFragger.com for all of your video game news.
