

I'm not the biggest fan of The Phantom Menace but these are some pretty great behind the scenes shots courtesy of HeyUguys.. The movie hits theaters in a few days time. Will you be going back to see if you still hate it/love it as much in 3D? I'll be revisiting the original 2D version before the new 3D one is released, just in case there are a few young whippersnappers who have yet to see the movie at all, and I can warn them of..ahh, I mean give them an idea of what to expect. Yes, that sounds less biased.
