

I guess I made today Star Wars fan appreciation day. First off we got a 6'4", 300-pound cake in the likeness of a Stormtrooper. And all I can ask is where is the Man vs. Food fat guy when you need him? Then we have a Sweded version of The Phantom Menace with of course is better than the original, but that is easy to top. And Lastly, we have feudal Japanese versions of some of your favorite Star Wars characters. Enjoy! Amanda Oakleaf Cakes. IMAGES COURTESY OF GEEKOLOGIE

Star Wars re-imagined in the culture of the Samurai seems like a natural fit and indeed it is. Check out this great collection of feudal Japanese art by Clinton Felker.
