

After the secret of the Stargate's ninth chevron is discovered, a team of explorers from Earth travels to the unmanned starship Destiny, which was launched by the Ancients hundreds of millenia ago as an experiment. The new crew, not able to control the Destiny's navigation, is forced to complete its original mission. They travel far out into the universe, encountering new races and enemies. "Gauntlet": When the command ships and their drones cut off all access to planets, the Destiny crew must finally fight back rather than flee. Starring: Robert Carlyle as Dr. Nicholas Rush Louis Ferreira as Everett Young Elyse Levesque as Chloe Armstrong Brian J. Smith as Lt. Matthew Scott David Blue as Eli Wallace Jamil Walker Smith as Master Sgt. Ronald Greer Alaina Huffman as Lt. Tamara Johansen Julia Benson as Vanessa James LEEE777 - Airs 9PM tonight on Syfy, the end is here, be there and see it go out with a bang!
