

Further promoting the DVD & Blu-ray release of Thor, 'Professor Erik Selvig' actor Stellan Skarsgård also chatted with Hollywood further dropping tidbits regarding his reprisal in the highly-anticipated summer blockbuster The Avengers. And this time around discussing how working on Thor with Kenneth Branagh differs from Joss Whedon, read on below. Was your character always that through-line? Because we have that tag scene at the end that brings you into the next part. Was that always the idea? That was not an original idea. Whenever you sign up for Marvel, you sign up for a number of films. But they were not ready with the plot of Avengers when we shot Thor. So, they came to me last fall, I think, and said, 'We're thinking about bringing [Professor Eric] Selvig into The Avengers as well. Will you do it?' And then I met with Joss [Whedon], and saw some pages, and here
