

With the global press tour expected to kick off this week, we're practically in the home stretch for Marvel's most mystical adventure yet - Doctor Strange! Tilda Swinton, who plays the Ancient One, paid a visit to Jimmy Kimmel last night and shared a few fun tales of her time on set, including one story that strongly suggested that the film would feature a planet other than Earth. She also brought with her the first official clip from Scott Derrickson-directed movie, which features her character giving a quick, but informative, lesson to Benedict Cumberbatch's hot-headed Stephen Strange. Check it out below:      Marvel's Doctor Strange follows the story of the talented neurosurgeon Doctor Stephen Strange who, after a tragic car accident, must put ego aside and learn the secrets of a hidden world of mysticism and alternate dimensions. Based in New York City's Greenwich Village, Doctor Strange must act as an intermediary between the real world and what lies beyond, utilising a vast array
