

According to the writer, Superboy will be adjusted, but not entirely rebooted. "I don't really see his origin story as that complicated: He was created by Project Cadmus from the cells of Lex Luthor and Superman in the event anything ever happened to Superman. None of that has changed," says Lobdell. "He's a work in progress, where the pre-September Superboy was more firmly established. Even when he was first introduced he was pretty much fully defined. The exciting part about this Superboy is we see him honing his T.K. [tactile telekinesis] powers in a way we've never seen before." Being a work in progress causes one to wonder if there will be more of a connection between this Superboy and the one that appears on Young Justice, who was more or less raised in a giant test tube and is trying to adjust to the world once he's freed by Robin, Aqualad
