

The CW has released a first look at next week's episode of Supergirl, and in it we see a pretty violent looking confrontation between the Girl of Steel and Mon-El, along with the debut of Lynda Carter's President of the Untited States. Both characters look set to shake up the series in a big way, and they'll need to, especially now that Superman has headed back to Metropolis and Cat Grant has left CatCo! An attack is made on the President (guest star Lynda Carter) as hot-button, alien vs. human rights issues heat up in National City. Supergirl (Melissa Benoist) and the DEO are assigned to protect the President and bring in the responsible party. Alex (Chyler Leigh) teams up with Detective Maggie Sawyer (Floriana Lima) to investigate the case while Kara searches for a recently escaped Mon-El (Chris Wood), who she fears may be the alien behind the assault. Rachel Talalay directed the episode written by Jessica Queller and Derek Simon.
