

A lot of people have been speculating about The Amazing Spider-Man movie over the past several months and may have been thinking that it can't possibly be very good. How can it even compare to TDKR, Avengers, or Toby McGuire's stunning performance? Or, it's simply a reboot of a Marvel Comics movie that had to be done for legal copyright reasons (no, I don't really know what I'm talking about). Now that I have seen it I will answer those concerns by saying I don't think any one should try to *compare* it to past Spider-Man movies or other comic book movies. This one stands alone in a new generation of comic book movies and hopefully more Amazing Spider-Man movies. I think it's a pretty original concept on the Amazing Spider-Man that borrows from the comic books and combines the best of today's technology and CGI. The cast is comprised of
