

James Mangold first teased us with the prospect of Hugh Jackman suiting up in a deleted scene from *The Wolverine*, and many fans believe we'll see the hero finally get a costume in *Logan*. Whether that's a flashback or because he needs it to compensate for his failing healing factor remains to be seen, but if nothing else, we'll at least get to see Wolverine in his classic blue and yellow duds in a comic book! Created specially for *Logan*, Joe Quesada provided the artwork and has now revealed the page. He worked on others too, but those are being kept under wraps presumably until the movie is released. "Since this page is already public, as seen in the mind blowing *Logan* trailer, I'm guessing it's okay to post these process pieces. It was a blast working closely with James Mangold on creating these pages (yes, there's more than one) and thrilled to have been invited on the project. Attached are my final digital
