

Thanks to Twitter user @antovolk, a deleted scene from the original script of The Dark Knight Rises is now online. The scene features Lucius Fox and Miranda Tate having a discussion at Wayne Enterprises. You can also see a screencap of the specific scene, which was shown in the 13-minute featurette for the film a while back. Check out all down below! You can read the original scripts for all of the films in The Dark Knight Trilogy by buying 'The Complete Screenplays' book.
