

I realize long distance pics of Freeman in his suit as Lucius are nothing to jump up and down about but what he might be doing on set here might prove more exciting. Word is, and I stress that this is still only rumor, that he will be joined by Tom Hardy and Marion Cotillard and scenes will be shot that see the tumblers being stolen and ol Lucius getting in the way. For what MAY happen after that click [HERE](#), possible spoiler warning. Anyway, if that's true my guess is this results in Tumbler theft and the aforementioned bike chase as the GCPD pursue.
