

When The Flash returns next year, Wally West will finally be Kid-Flash. However, while he may be loving his new life as a speedster, it appears as if Barry Allen is finding it hard having a sidekick of sorts joining him in the field! You have to wonder just how long the show will have these two working together, especially when another hero who can tap into the Speed Force makes The Flash a lot less unique. Perhaps a better place for Wally would be Legends of Tomorrow, but for now, the Scarlet Speedster attempting to train Kid-Flash looks set to be a big part of the show. The clip below also confirms that H.G. has succeeded in convincing the team to let him turn S.T.A.R. Labs into a museum, and this could very well be our first step towards seeing the popular Flash Museum which hails from the comics!
