

At a count of 15, Marvel's The Avengers is 2012's most mistake filled movie so far (The Hunger Games is second at 13). Here are some of the mistakes that have been identified thus far---

Factual error: The video game company NAMCO Bandai is misspelled twice as "NAMECO Bandai" in the end credits. Audio problem: When one of the computer operators resumed playing Galaga, the sound effect heard is for an enemy ship attempting to capture the player's ship, but what's shown on screen is normal gameplay. Continuity: In multiple shots where Iron Man is flying around the city, there are cuts on his forehead. However, when he is lying on the ground and Thor rips the face mask of his suit off, the cuts on his forehead have disappeared. Continuity: After Iron Man takes out a worm "Jonah style", he crashes into a cab and stop about two feet away. He gets up, there
