

While we await a full trailer for FX's Legion, you can check out a very brief new "Danger" promo, which sees David Haller's doctor preparing to determine whether or not he's a danger to himself and others. The hint of a smile on the young mutant's face seems to suggest he already knows the answer. There haven't been any official reviews yet, but NYCC attendees were shown about 25 minutes of the pilot during last night's panel, and all of the reactions have been very positive. Tell us, are you looking forward to Legion? Let us know in the comments section. Legion follows David Haller, a troubled young man who may be more than human. Diagnosed as schizophrenic, David has been in and out of psychiatric hospitals for years. But after a strange encounter with a fellow patient, he's confronted with the possibility that the voices he hears and visions might be real. Legion is set to premiere on FX in 2017.
