

Yesterday, we got the details on The Dark Knight Rises US home video release, this included the Blu-ray cover and details on the special features, but that's about it. Now, we have even more including the DVD back and front cover, the Blu-ray back cover, a new look at the Limited Edition Broken Cowl set (where only 30,000 will be available), the US cover art for the The Dark Knight Trilogy Limited Edition Giftset and Warner Home Entertainment's full press release about the Blu-ray and DVD launch, check out all down below!

"Burbank, CA – "The Dark Knight Rises" arrives this holiday season onto Blu-ray Combo Pack, DVD and Digital Download on December 4 from Warner Bros. Home Entertainment Group. In the epic conclusion to filmmaker Christopher Nolan's The Dark Knight trilogy, Gotham City is threatened by the masked terrorist Bane, forcing Batman to return from an eight-year absence and fight for
