

Earth-1 has proven to be well-equipped for many different kinds of threats, including, but not limited to, mercenaries, assassins, meta-humans, and time-traveling speedsters. However, when aliens come to play, Earth's only line of defense finds themselves way out of their element, but luckily for them, Barry Allen has one Super ace up his sleeves. The CW (via SpoilerTV) has debuted four electrifying new posters for the "Heroes v Aliens" crossover event featuring the stars of Supergirl, The Flash, Arrow, and Legends of Tomorrow joining together on an epic banner, which you can view in low-resolution above. The four-part crossover will kick off on November 28 with the Girl of Steel before picking up some steam on Tuesday night with the Scarlet Speedster, followed by the Emerald Archer on Wednesday, and then finally coming to a close with the Legends on Thursday.
