

While we may have caught our first glimpse of the Speed Force in Batman v Superman, there's still a lot left to explore in the DCEU's take on the extra-dimensional energy that powers The Flash and other Speedsters like him. In a recent interview with the #Mills YouTube channel for Fantastic Beasts And Where To Find Them, Ezra Miller elaborated a little further on what his idea of the Speed Force is to both himself and his take on Barry Allen. "[Dance choreographer] Martha Graham, one of my greatest inspirations, said in a series...in a quote that 'there is a vitality, a life force, a quickening', and for me, the idea of a quickening, the idea that the whole universe as we know it is essentially this composition of things at different speeds, is an interesting idea," Miller said, comparing the influence of the Speed Force as similar to that of the Force from Star Wars. "So the Speed Force being like The Force [from
