

The CW has released a first look at next week's episode of The Flash, and as you can see, it appears as if Wally West's transformation into Kid-Flash will be taking centre stage here. Whether or not it will actually happen isn't made clear here, though it definitely appears as if the youngster is cracking up after having flashbacks to his time as a speedster in the Flashpoint timeline (good going, Barry). What did you think of tonight's episode of The Flash? Are you hoping Wally becomes Kid-Flash next week? As always, be sure to weigh in with your thoughts on all that and more in the usual place. When Wally (Keiynan Lonsdale) starts having dreams about being Kid Flash, Barry (Grant Gustin) realizes he has to tell Wally, Iris (Candice Patton) and Joe (Jesse L. Martin) about what happened to Wally in Flashpoint in order to keep him safe. JJ Makaro directed the episode written by Emily Silver & David Kob.
