"He's made it dark and complex." Carnahan added: "What Chris had to rescue, the doldrums from which he had to rescue the Batman franchise, were considerable. I mean, that's like diving down into the center of the Earth and pulling up [gold]. I just think he did a remarkable job of that. And the proof is in the pudding. Those movies are absolute character studies disguised as superhero films, which I think are great." "That's a good description," Neeson agreed. "That was very good!" The Grey is in theatres now and after seeing it earlier today, I definitely recommend checking it out this weekend. Liam Neeson takes
