

You've met Bruce Wayne... now, get ready to meet Van Wayne! Yeah, you read that right. NBC's upcoming DC Universe-set comedy series *Powerless* will introduce Bruce's cousin, Van, played by none other than Alan Tudyk (*Rogue One: A Star Wars Story*) and based on what we know, he'll be Emily Locke's boss at Wayne Security - a job he likely secured thanks to his family ties. NBC just released a new promo that introduces Tudyk's character and showcases his dynamic with the more famous Wayne as well as with Vanessa Hudgens' Emily. Check it out below: [.@NBCPowerless](#)
