

From The Academy of Motion Picture Arts and Sciences (The Oscars) event "Bigger, Faster, Stronger, Stranger: The Science of Hollywood Superheroes" at the Samuel Goldwyn Theater on August 15, 2012 Also, physics teacher Adam Weiner, author of "Don't Try This at Home" discusses what it takes to be Batman and breaks down a fight between the Green Goblin and "Spider-Man." The Academy of Motion Picture Arts and Sciences (AMPAS) is a professional honorary organization dedicated to the advancement of the arts and sciences of motion pictures. The Academy's corporate management and general policies are overseen by a Board of Governors, which includes representatives from each of the craft branches. The Academy is composed of over 6,000 motion picture professionals. While the great majority of its members are based in the United States, membership is open to qualified filmmakers around the world. The Academy is known around the world for its annual Academy Awards, informally known
