

At this point making fun of Paul Feig's somewhat ill-advised Ghostbusters reboot kinda seems like kicking a movie when it's down (the film is officially a flop for Sony), but that's exactly what Screen Junkies decided to do for their latest Honest Trailer. Most of us at CBM actually enjoyed Ghostbusters to a degree, and even some of the most vocal naysayers were forced to admit that it wasn't that bad when they actually saw it - but, as voiceover-man points out in the vid, it was still a bit crap in many respects. Anyway, have a watch, and let us know if you've come to appreciate the movie any more since its release. No... seriously. . . Erin Gilbert (Wiig) and Abby Yates (McCarthy) are a pair of unheralded authors who write a book positing that ghosts are real. A few years later Gilbert lands a prestigious teaching position at Columbia University, but her book resurfaces and she is laughed out of academia. Gilbert
