

Despite some mixed and negative reviews (a few of which you can see below) the overall consensus appears to be a positive one for The Amazing Spider-Man. While a lot of critics are still embargoed, we still have a pretty good selection of opinions from the likes of UK film magazines such as SFX to tabloids like The Daily Mail and US trades such as Variety. More reviews can be found by clicking [HERE](#), while we here at CBM will be posting our first review of the film on June 29th. But as the film to kickstart the franchise afresh, The Amazing Spider-Man more than succeeds. It may not have the non-stop action and spectacle of Avengers Assemble, but it does have characters you can fall in love with, and bags of charm. You feel the series is in safe hands with Webb, Garfield and Stone. And in an extra scene
