

News broke earlier today that AMC's hit show, The Walking Dead, will be running 16 episodes for its third season. Show runner Glen Mazzara sat down with The Wrap to talk about the show and its success. He also said that like the audience the writers are in the dark as to how the Zombie outbreak started. "Internally, we don't know where the zombie outbreak started, how to cure it, anything like that. We haven't really discussed it. We're more interested in the continuing storylines. That's something that's not really addressed in the book, and that's something that we'd like to keep." But don't expect them to go into that any time soon because the show is more about the characters and staying alive rather than how the outbreak happened. "This show is about our characters. And about them trying to stay alive, hold on to their humanity, find
