

1. DAREDEVIL #16 Marvel's best series continues to, you know, be their best series as the Avengers attempt to bring back Matt Murdock. Left without any of his senses after being captured by the Latverians, a recent preview revealed that Giant Man has shrunk down and has travelled into Daredevil's brain in order to reactivate his senses one by one with the help of Doctor Strange and Iron Man. As if that isn't enough, the secret discovered by Foggy Nelson will FINALLY be revealed. What could be so awful that it leads to the end of Nelson & Murdock?! I for one can't wait to find out! Chris Samnee's pencils are perfectly suited to the series and he maintains the high level of quality set by Paolo Rivera and Marcos Martin. The Eisner Award winning comic is a must-buy, and if you're not picking it up, kick yourself. Hard. 2. AVENGERS VS. X-MEN
