

Logan is less than a month away from release, and fans are starting to get a better look at Hugh Jackman's final X-Men film with each new piece of promotional material. The latest TV spot gives us a few more snippets of new footage, including one of the film's villains, Dr. Zander Rice (Richard E. Grant) giving Logan an ominous warning. Additionally, James Mangold spoke with We Got This Covered about why there aren't any major X-Men cameos in the film; according to the director, he did consider having a few mutants pop up (though he refused to specify which), but in the end he felt it took away from the overall story. "There were times early on in the story where I played with the idea of Hugh coming along, and I don't want to give away anything, but I played with there being an underground railroad where there were a couple of other mutants that he met on the journey. It always
