

So yeah... this is a thing. Below you'll find the first trailer for Sony's The Emoji Movie, which features the voice talents of Deadpool's T.J. Miller, late night talk show host James Corden, and Broad City star Ilana Glazer among others. In it, the "Meh" emoji (standup comedian Steven Wright) introduces himself and promotes the movie in a very enthusiastic manner. I guess this is mildly amusing stuff, and to be fair, nobody thought The LEGO Movie would amount to much and that was one of the funniest movies of the last few years. Will we be giving The Emoji Movie a chance? be sure to share your thoughts in the comments. Directed by Anthony Leondis with an original screenplay co-written by Eric Siegel, The Emoji Movie has a release date of August 4, 2017.
