

Thanks to The Hollywood Reporter, we have the following information about the successful debut of THOR on DVD and Blu-Ray. While a sequel has already been confirmed for release in 2013, this is a great sign that the iconic Marvel character played by Chris Hemsworth has a very long future ahead of him on the big screen! Here's hoping that the same can be said for Captain America: The First Avenger when it's released on October 25th. Thor pushed the previous week's best seller, fellow summer tentpole X-Men: First Class, from 20th Century Fox, to No. 2. Fox also snagged the No. 3 spot on the chart with Star Wars: The Complete Saga, featuring all six films in their Blu-ray debut. The package lists for \$139.99, which makes its No. 3 debut all the more spectacular. Thor also topped Nielsen's dedicated Blu-ray Disc chart, with Star Wars coming in at No. 2 and
