

One of the most exciting things about The Defenders is obviously seeing Daredevil, Jessica Jones, Luke Cage, and Iron Fist come together for the first time, but so far, set photos have only treated us to shots of Jessica spending time either with Matt Murdock or Luke Cage. Well, now the trio has come together as shooting continues in New York City, but you have to wonder...where exactly is The Last Defender? Well, with Danny Rand being a billionaire and all, chances are he probably doesn't take the subway! We have no idea when and where this scene takes place of course, so it could be that they haven't met Iron Fist at this point, but the images in the Tweet below leave us with a lot to think about regardless! As cool as they are, though, we're all still desperately waiting on the shot of the team in costume! What do you guys think about this latest look at The Defenders? Share
