

Source: Moviefone As we all know, CBM's are often a vehicle that can rocket little known actors to instant fame and success. Granted, most of these actors and actresses are very, very talented and have a "pseudo" cult following long before they star in these blockbuster, tent-pole franchises; it's with unequivocal doubt that I say comic book movies are a tool that many actors use to achieve that mega level of fame and status. Look no further than the likes of Christian Bale, sure he was fairly well known before Batman Begins but it was the role of Bruce Wayne that propelled him to his current height of super-stardom. And more recently, we have the likes of Michael Fassbender, Chris Hemsworth, and Chloe Moretz who are now all cashing in on stellar performances in comic book films and using that momentum to land movie roles they may have otherwise
