

Len Wiseman's Total Recall is hitting theaters next week, and everybody must be wondering how long the movie will turn out to be. In this new interview with Collider, the director reveals that the running time of the film is about 1 hour and 49 minutes long, also that the Blu-Ray will have a director's cut version which includes 17 minutes of additional footage and more. Watch the video, and check the highlights from the interview below: The type of scenes his director's cut will focus on: "There are scenes where it really comes into question about questioning his whole reality: I love that game, that's why I did this movie. So there's a lot more of that, so it often can feel like, 'Is it repeating?' I personally don't feel like it is, I feel like it's really diving in and really just chewing on it for a while, so I'm
