

Upper Deck trading card scans have been offering an early look at various new stills from Marvel's The Avengers over the past month. So considering these stills will eventually be officially released, they won't be entirely new. With that said, two HQ stills have been officially released via Entertainment Weekly, both featuring Scarlett Johansson in character as the seductive Russian spy 'Black Widow.' Additionally, according to "insiders" of celeb gossip-paparazzi site Showbiz Spy, the actress kept her skin-tight suits after production concluded. "Scarlett was determined to keep one of her costumes but she took a few," says an insider on the set. "The thing is that her suit was so tight that it would often rip but she seemed very attached to them – even the ripped ones. Maybe she wants it for fancy dress parties!" Marvel Studios presents in association with Paramount Pictures "Marvel's The Avengers"--the
