

"Zod actually doesn't have a cape. Not in this scene, and it seemed VERY intentional. Zod looks like a predator, a warrior" The always "reliable" IMDB has furnished us with yet another possible description of scenes from the new Superman movie, Man of Steel. I would normally not post something that comes from IMDB, but the descriptions sound pretty believable. I'm a visual effects supervisor for the upcoming film After.Earth, the M. Night picture. I've also done work on Avatar, Iron Man, and Sin City. I'm on IMDb. I'll admit I check my own page from time to time. It feels good. I frequent this board often, I'm a huge comic book fan (as shown by the movies I've worked on). Last night at a VFX conference there was a sizzle reel shown by Weta. In this sizzle reel there were two beta level(most likely from a trailer) clips shown. One only
