UPDATE: Thanks to heads-up from @antovolk I was alerted to even more epic footage for Ridley Scott's Prometheus. Check it out! Prometheus will hit theaters in the US on June 8, 2012 through 20th Century Fox. Prometheus is an upcoming science fiction film directed by Ridley Scott and starring Noomi Rapace, Charlize Theron, Michael Fassbender, Guy Pearce, Idris Elba, Kate Dickie, and Logan Marshall-Green. The film was originally intended as a direct prequel to the 1979 science fiction horror film Alien. However, the events of the film will not precede any of the previously established characters or story lines from the Alien franchise. Filming began in March 2011, and Prometheus is scheduled for release in the USA on June 8, 2012 through 20th Century Fox. The film will focus on a mythology within the Alien universe. Set in
