

Exclusive: Behind The Scenes Of Star Trek 2 by splashnews As is noted by the slightly annoying voice in the vid, Cumberbatch's character is pretty much giving ol Spock an ass whooping here, and since Vulcans are considerably more powerful than humans it would seem to suggest that whoever Cumberbatch is playing is not a normal human. He doesn't LOOK like Khan - or at least the previous incarnation of the character - so who could he be? Many thanks to Black Widow for the heads up. The still untitled Star Trek sequel hits theaters May 17, 2013.
