

What is VENOM? VENOM is an alien symbiote, a life form that requires a host to bond around for its survival. The creature is a sentient alien with a gooey, almost liquid-like form. VENOM creature gives its host enhanced powers. VENOM first appeared as an "alien costume" in The Amazing Spider-Man #252 (May 1984) it was created by Randy Schueller (original idea) and David Michelinie, with Mike Zeck designing the alien costume and Todd McFarlane drawing the first VENOM appearance. What are its powers and abilities? The VENOM symbiote empowers the natural abilities of a host to the point where they far exceed that of normal members of the hosts' species. These abilities include the following superhuman strength, speed and agility, Super enhanced durability, resistance to damage and healing ability, genetic memory, recalling information from previous hosts. Can expand to any size as long as they have something to grow on
