

Talking to Hollywood.com, The Amazing Spider-Man producers Avi Arad and Matthew Tolmach have revealed that while there may be connections between that and the Venom spin-off, they won't necessarily share the same world. "Look for the worlds to make sense with one another," teases Tolmach. "What I'm trying to say to you without giving anything away is hopefully all these worlds will live together in peace someday." So, it sounds like there MIGHT be a chance of the two characters crossing paths, although it surely won't make sense unless the villain is first introduced in a Spider-Man sequel. The site adds that it will not have any links to the version of Eddie Brock introduced in Spider-Man 3. "It's an Eddie Brock story," said Arad. "We want to be as close to the comics as possible. Especially in Eddie Brock's story. But again, pseudo-science is becoming science. All these tidbits about
